ANUGERAH FAKHRIZA RESWARA

nugrahreswara@gmail.com | LinkedIn: linkedin.com/in/nugrahreswara | Portfolio: nugrah.my.id
Samarinda, East Kalimantan

Active Informatics students with specialization in *IT Network Systems Administration*, *IT Network Engineer* and *IT Support.* Have practical experience in IT infrastructure installation, Linux/Windows server configuration, and Cisco and MikroTik device management/configuration. Skilled in working collaboratively in a team and having high responsibility.

Work experience

Bank Sinarmas | Samarinda City April 2024 - August 2024

IT Support

- Rejuvenate infrastructure by installing and configuring computer devices, laptops and printers in accordance with Bank Sinarmas' operational standards.
- Managing local network connectivity ensures secure and stable access to Bank Sinarmas' central servers.
- Provide peripheral technical support (troubleshooting) to ensure the office runs smoothly on a daily basis.

PT. PLN Icon Plus | Samarinda City July 2024 - December 2024

On-site retail and customer service

- Perform customer modem device asset management and post-subscription coordination.
- Carry out physical cable infrastructure repairs in areas affected by mass network disruption.
- Map cable paths virtually through the company's internal systems to improve network distribution efficiency.

Information Communication Technology Mulawarman University August 2026 - Present

Infrastructure, Network, and Security Division Intern

- **Engineered and deployed an enterprise-grade perimeter gateway** utilizing OPNsense on VMware ESXi to manage public IP routing, enforce firewall rules, and establish secure remote access via WireGuard VPN tunnels.
- **Architected and maintained a multi-tenant web hosting platform** on Debian GNU/Linux hosting environments, orchestrating dozens of isolated student application containers using Docker and NGINX Reverse Proxy.
- **Implemented robust email infrastructure (Mail Server)** featuring Postfix and Dovecot for internal institutional communication, reinforced with advanced security protocols including SPF, DKIM, and DMARC record configurations.

- **Administered high-performance multi-service game server workloads** on Linux environments, executing rigorous resource allocation (JVM tuning), Uncomplicated Firewall (UFW) management, and cross-platform network optimizations (GeyserMC/ViaVersion).

- **Conducted internal network vulnerability assessments and penetration testing simulations**, successfully identifying critical security flaws (such as CVE-2021-21974 / OpenSLP vulnerabilities) and compiling formal audit mitigation reports for university IT leadership.

Education

Mulawarman University 2025 - Present
S1 Computer Science

Airlangga Vocational High School of Information Technology Samarinda 2022 - 2025
Computer Network and Telecommunications Engineering

Certifications

AWS Certified Cloud Practitioner July 2026 - 2029
Amazon Web Services | 2026

MikroTik Certified Network Associate June 2024 - 2027
MikroTik | 2024

Junior Technical Support May 2025 - 2028
National Professional Certification Agency | 2025

Omada Certified Network Administrator Routing and Switching May 2025 - 2028
TP-Link | 2025

Omada Certified Network Administrator Wireless May 2025 - 2028
TP-Link | 2025

Fortinet Certified Fundamentals Cybersecurity November 2025 - 2027
Fortinet | 2025

Fortinet NSE 2 Certified in Cybersecurity November 2025 - 2027
Fortinet | 2025

Fortinet NSE 1 Certified in Cybersecurity November 2025 - 2027
Fortinet | 2025

Training

AWS re/Start Graduate June 10, 2026
Amazon Web Services Training and Certification

Proxmox-based Virtual Server Management Training June 19, 2024
Samarinda State Polytechnic

Red Hat Training: Getting Started with Linux Fundamentals (RH104 - RHA) - Ver. 9.1 November 20, 2025
Red Hat

Red Hat System Administration I (RH124 - RHA) - Ver. 10 June 6, 2026
Red Hat

Red Hat System Administration II (RH134 - RHA) - Ver. 10 August 2, 2026
Red Hat

Red Hat Enterprise Linux Automation with Ansible (RH294 RHA) - Ver. 9.0 September 20, 2026
Red Hat

Achievements

National Student Competency Competition 28 July - 1 August 2025
Medallion for Excellence in the field of IT Network Systems Administration

- Medallion For Excellence for achieving a score of 700 and above.
- Ranked 10th out of 30 provincial representatives from all over Indonesia in the field of IT Network Systems Administration competition at the national level.
- Successfully configured multiple Linux/Windows servers with various services such as Firewall, DNS Server, DHCP Server, Web Server (HTTP & HTTPS), Mail Server (SMTP, POP3 & IMAP), WebMail and VPN Server.
- Successfully configured Cisco Router and Switch devices with multiple tasks such as dynamic routing, VLAN, Inter-VLAN routing, Access Control List, Port Security, EtherChannel, Port Aggregation, DHCP Server/Client, VTP Server/Transparent/Client and DNS Server/Client.

East Kalimantan Provincial Student Competency Competition July 19 - July 21, 2025
1st place in the field of IT Network Systems Administration

- 1st place out of 8 Regency/City representatives in East Kalimantan.
- Successfully configure multiple Linux/Windows servers with various services such as Firewall, Monitoring, DNS Server, DHCP Server, Web Server (HTTP & HTTPS), Mail Server (SMTP, POP3 & IMAP), WebMail and VPN Server.
- Successfully configure Cisco Router and Switch devices with multiple tasks such as

dynamic routing, VLAN, Inter-VLAN routing, Access Control List, Port Security, EtherChannel, Port Aggregation, DHCP Server, VTP Server/Transparent/Client and DNS Server/Client.

Samarinda City Level Student Competency Competition April 29, 2025

1st place in the field of IT Network Systems Administration

- 1st place out of 9 representatives of Vocational High Schools in Samarinda City.
- Successfully configured Linux/Windows servers with various services such as Firewall, DNS Server, DHCP Server, Web Server (HTTP & HTTPS), Mail Server (SMTP, POP3 & IMAP), WebMail.

TECHNOFEST Network Competition of Mulia University Balikpapa February 4, 2025

1st place in the Computer Network competition

- 1st place out of 19 participants.
- Successfully configured Cisco MicroTik Router and Switch devices with multiple tasks such as dynamic routing, VLAN, Inter-VLAN Routing, Port Security, DHCP Server and L2TP VPN.

July 12 - July 14, 2024

East Kalimantan Provincial Student Competency Competition

2nd place in the field of IT Network Systems Administration

- 2nd place out of 7 regency/city representatives in East Kalimantan.
- Successfully configure multiple Linux/Windows servers with various services such as Firewall, Monitoring, DNS Server, DHCP Server, Web Server (HTTP & HTTPS), Mail Server (SMTP, POP3 & IMAP), WebMail and VPN Server.
- Successfully configure Cisco Router and Switch devices with multiple tasks such as dynamic routing, VLAN, Inter-VLAN routing, Access Control List, Port Security, EtherChannel, Port Aggregation, DHCP Server, VTP Server/Transparent/Client and DNS Server/Client.

May 4, 2024

Samarinda City Level Student Competency Competition

1st place in the IT Network Systems Administration

- 1st place out of 7 representatives of Vocational High Schools in Samarinda City.
- Successfully configured multiple Linux/Windows servers with various services such as Firewall, DNS Server, DHCP Server, Web Server (HTTP & HTTPS), Mail Server (SMTP, POP3 & IMAP), WebMail.

Technical Expertise

- **IT Systems Administration**
  - **Installation and configuration of Operating System:** Linux/FreeBSD/Windows Server & Client.
  - **Network Services:** Static/Dynamic Routing, NAT, DNS Server/Client, Apache2/Nginx Web Server, Mail Server/Client, WebMail, LDAP Server/Client, DHCP Server/Relay/Client and SSL/TLS Certificate.
  - **Security:** NFTables/IPTables Firewall, HAproxy/Squid proxy and VPN Server/Client.
  - **Automation and Virtualization:** Ansible, Keepalived, Proxmox and VMware ESXi.
- **IT Network Administration**
  - **Devices:** Cisco Access Point/Router/Switch, Mikrotik, Ruijie, Ubiquiti & TP-Link.
  - **Protocols:** Static/Dynamic Routing (RIP, OSPF, EIGRP and HSRP), VLAN, Port Aggregation, Spanning Tree Protocol (STP), Etherchannel and Virtual Trunking Protocol Server/Transparent/Client.
  - **Security:** Firewall, Access Control List (ACL) & Port Security.
  - **Services:** DHCP Server/Relay/Client, DNS Server/Client, TFTP Server/Client and Hotspot.
- **Internet of Things**
  - **Microcontrollers:** Arduino Uno, Arduino Mega and Arduino Nano, ESP32 and ESP8266.
  - **Single Board Computer:** Raspberry Pi 3 and Raspberry Pi 4.
